Please demonstrate in no more than 100 words why you feel to be a suitable candidate for this training course. Spaces on this course are limited, so they will be awarded only to those applicants who demonstrate their commitment and capability to contribute to improving urban transport and mobility.

I will attend the training session in Budapest, Hungary from 14th until 16th of April 2008 where the following topics will be presented:

- Urban road safety
- Cycling
- Urban traffic management

The first two days will be allocated to presentations and interactive discussions, and the third day will include a study tour and free programme.

The participation in the training session is free of charge. Participants need only pay for their own travel and subsistence.. We are making a group reservation for all accepted trainees from 13 April until 17 April.
